

The Chile Chico

September 2013- Vol. 37

Sunset on the Menihok Lake, Labrador

...Well it happened again on our Labrador canoe trip. It had been raining all day....the kind of rain that soaks you to the bone even though you've got the fancy, expensive rain gear on. Everyone was cold. I mean it was just miserable. Yet I appreciated being where I was; how God has blessed me and let me explore Labrador, canoeing where few men had ever been. I know it sounds strange. I guess it's hard to explain. Each evening we studied passages that dealt with our Creator-

Redeemer. Maybe that is the attraction, exploring the very creation He made!

Anyhow it was a great trip. The 24 hour drive to Labrador was not too bad. We took a train ride up a beautiful canyon to Menihok Lake where we unloaded the canoes.

The train ride

For the next seven days we explored this beautiful and majestic wilderness...and the fishing! Unbelievable!

If you want to a similar experience, join us next summer. You won't be disappointed.

Please pray for our upcoming mission trip with college students to Chile in January.

In His service,

Dan and Jan
